

- In this before shot, you can clearly see the staining and wear on the boat's finish above the waterline.

- Following the Glidecoat Auto Kit application, the boat has been restored to a 'better-than-new' finish.

GLIDECOAT AUTO KIT

Glidecoat Auto Kit is all you need to provide a long lasting shine that is quick and easy to apply and repels dirt, salt, road contaminants, bugs, stains and rain, providing the best protection for your vehicle.

The process is not a difficult one and is completed in four stages. First the car should be completely hand washed and dried using Glidecoat Nano Wash. The second and most important step is to apply Glidecoat Nano Polish to remove any inconsistencies in the paint or paint damage. The third step is to de-contaminate the surface using Glidecoat Surface Wipe removing any surface contamination. The last and final step is applying Glidecoat Liquid Crystal.

Once completed you will notice rain will bead on your car surface and simply bead off. Bugs and insects will just rinse off. Even ice will not adhere to the surface, making snow and ice easy to remove. The UV Resistance will ensure your paint finish lasts considerably longer and the car will be easier to clean and maintain that high end shine.

Note - The surface should be 100% free of surface blemishes, which applies to new vehicles as well. If any concern about getting your vehicle to that level please consult a professional car detailer before applying the final coating.

KIT INCLUDES

- 1 Bottle of Glidecoat Nano Wash - 4oz
- 1 Bottle of Glidecoat Polish - 8oz
- 1 Bottle of Glidecoat Surface Wipe - 8oz
- 1 Bottle of Glidecoat Coating - 80ml
- 2 Microfiber Cloths
- 2 Pairs of Protective Gloves

The Glidecoat Auto Kit includes sufficient product to effectively wash the automobile, prep the surface with compound, polish ensuring a consistent finish to further enhance and protect the surface.

BENEFITS

- Gloss and color rejuvenation
- Provides a hard coating resisting scratches and stains
- Restores color and gloss 35 percent more than traditional wax
- Safe on Gel Coat and most marine paints
- Reflects UV rays, providing long term protection from sun damage
- Repels stains from acid rain, bird droppings and pollen
- Eliminates mold and mildew by sealing pores in gel coat and caulking
- Once Glidecoat Top Coating is applied, no waxing is required - significantly reducing maintenance
- Ongoing maintenance after top coating - washing the automobile every 2-4 weeks with Glidecoat Nano Wash and applying UV Surface Shield every 3-4 months on the brow and other high profile areas that receive heavy sun exposure
- Laboratory and in-field test prove 12-18 month life span.

DISCLAIMER:

Glidecoat a division of Onan Technologies Inc.'s maximum liability for or with respect to any damages of any kind to any person, property or otherwise, caused to any Customer or any other person as a result of or with respect to any proven breach of any express or implied warranty with respect to any Product; misrepresentation with respect to any Product; Product error, failure or malfunction; formula, engineering or design error; manufacturing or packaging error; labelling error; Product failure to perform; or any other act or omission of any kind whatsoever with respect to any Product, shall be limited the price paid by the Customer for the Product at the time of original purchase (not including shipping, handling, sales taxes or installation services); and Product purchase price refund shall be Customer's only claim or remedy arising therefrom. IN ADDITION TO AND WITHOUT LIMITATION OF THE FOREGOING, GLIDECOAT SHALL NOT BE LIABLE UNDER ANY RULE OR THEORY OF LAW TO ANY CUSTOMER OR ANY OTHER PERSON FOR (A) INCIDENTAL, CONSEQUENTIAL, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO LOSS OF REVENUES, LOSS OF PROFITS, LOSS OF BUSINESS, OR OTHER ECONOMIC DAMAGES, OR (B) ERRORS MADE IN THE HANDLING, STORAGE OR INSTALLATION OR APPLICATION OF ANY PRODUCT, REGARDLESS OF WHETHER ONAN WAS ADVISED OF, KNEW OR OUGHT TO HAVE KNOWN OF THE POSSIBILITY OR RISK OF SUCH LOSSES OR DAMAGES.

THE PROCESS:

Preparation

The automobile is to be washed and thoroughly cleaned with Glidecoat Nano Wash.

Surface Restoration

Using Glidecoat Nano Compound and Polish remove any areas of surface oxidation or any surface debris or scratches.

Application Process

Use Glidecoat Surface Wipe and a clean cotton white towel to decontaminate the surface leaving it completely clean before applying Glidecoat Top Coating. Use application sponge to apply Glidecoat Top Coating in small areas, 24" by 24" at a time. Then, immediately after applying to the area, use clean microfiber towel to buff out the area to a uniform shine. Repeat this process on the entire automobile overlapping all areas to ensure complete coverage.
