GLIDECOAT MARINE

Glidecoat Marine is engineered to virtually restore the surfaces original color while retaining the gloss and protecting the surface for up to 18 months from dirt, stains, fish blood and salt.

Glidecoat uses Nano technology and state-of-the-art polymers to fill in the microscopic pores and scratches on surfaces. This makes the surface hydrophobic and super smooth. Now contaminants like residue, dirt and fish blood or slime can be rinsed away because they are not being absorbed into the surface. They are actually sitting on top of it.

COMMON USES

FISH BOX

Glidecoat Marine is a product that will help your fish box, live well or cooler stay clean and look like new. It contains special nano coating agents that makes the surface highly hydrophobic and super-smooth. Contaminates like dirt, salt, and fish blood easily rinses away because they are not absorbed into the surface.

FISHING ACCESSORIES

Over time dirt, fish guts, salt residue or algae from fresh water build-up on your fishing — Glidecoat Marine is the solution for anglers. The coating provides 12-18 months of surface protection and creates a hydrophobic surface that repels water, dirt, stains from fish blood.

MARINE ELECTRONICS

Glidecoat Marine is the solution to help reduce maintenance and increase the longevity of the boats accessories. This equates to a smooth surface coating that barnacles and other marine organisms cannot attach themselves too, keeping your boat's stainless steel clean and free of marine growth. Can be applied to all running gear, underwater lights, lenses and thru-hull fittings.

GLIDECOAT

Glidecoat provides a unique range of high performance products and services using Smart Surface Technology (SST) Nano-composite materials. Products include Glidecoat Nano Glass, Glidecoat Inflatable Kit, Glidecoat Top Coating and UV Surface Shield. These products have been extensively tested on all forms of marine vehicles in extreme weather conditions by accredited laboratories and have been proven to provide superior protection in even the harshest conditions.
