

- In this before shot, you can clearly see the staining and wear on the boat's finish above the waterline.

- Following the Glidecoat Top Coating application, the boat has been restored to a 'better-than-new' finish.

GLIDECOAT TOP COATING KIT

Glidecoat's Top Coating Kit gives you everything you need to restore and protect older boats, while also being a great solution to preserve and protect newer, or brand-new boats.

Glidecoat's Top Coating Kit includes a range of Glidecoat products, including; Nano Wash, Nano Compound, Nano Polish, Surface Wipe, and Glidecoat's Nano-Ceramic Top Coating.

These products allow you to prep, restore, protect, and enhance a wide variety of surfaces, from gel coat, paint, and metal. Developed and formulated for the marine environment, Glidecoat's Nano-Ceramic Top Coating produces a thin (3-4 micron) protective layer over the surface, filling in the pores and bonding directly with the surface. This semi-permanent coating provides extreme gloss and shine, while creating an extremely hydrophobic surface. Glidecoat's Nano-Ceramic Top Coating protects the surface for 18 months from UV damage, salt, dirt, stains, and fish blood, all while greatly reducing maintenance.

Unlike wax, Glidecoat's Nano-Ceramic Top Coating creates a hard barrier, providing far superior protection that lasts 6 to 8 times longer than wax.

Glidecoat's Top Coating Kit is the best solution to help reduce maintenance and increase the longevity of the boat's surface.

Independent laboratory testing along with extensive in-field studies show that Glidecoat's Nano Ceramic Top Coating provides 18-24 months of surface protection and gloss retention.

KIT INCLUDES

- 250ML of Nano - Ceramic Top Coating
- 12oz of Nano Wash
- 16oz of Nano Compound
- 16oz of Nano Polish
- 16oz of Surface Wipe
- 4 Microfiber Towels, 4 Application Sponges, 2 Pairs of protective gloves
- Complete application instructions

The Glidecoat Top Coating Kit provides sufficient product for up to a 30 foot boat (waterline to rub rail & gunwales), to effectively wash the boat, prep the surface with Nano Compound and Nano Polish, ensuring a consistent finish, and Nano Ceramic Top Coating to enhance and protect the surface.

BENEFITS

- Long Term Gloss and color retention to gelcoat, new or old paint
- Colors and graphics remain vibrant
- Restores contaminate paint finishes and/or gelcoat to a new, glass like appearance.
- Can be applied to gelcoat, painted surface and metal finishes
- Highly resistant to UV unlike normal wax products which start to evaporate at 110°F
- Reduces ongoing maintenance of coated surfaces
- Provides hydrophobic qualities for resistance to water and repel stains from salt, insects or fish blood
- Oleophobic to keep transom areas clean from oil breather or diesel exhaust.
- Ongoing maintenance after Nano-Ceramic Top Coating. Rinse boat after use and dry with chamois. Washing the boat every 2-4 weeks with Glidecoat Nano Wash and applying Shine & Shield every 4-6 months on the bow and other high profile areas that receive heavy sun exposure.
- Laboratory and in-field tests prove 18-24 month life span.

DISCLAIMER:

Glidecoat a division of Onan Technologies Inc.'s maximum liability for or with respect to any damages of any kind to any person, property or otherwise, caused to any Customer or any other person as a result of or with respect to any proven breach of any express or implied warranty with respect to any Product; misrepresentation with respect to any Product; Product error, failure or malfunction; formula, engineering or design error; manufacturing or packaging error; labelling error; Product failure to perform; or any other act or omission of any kind whatsoever with respect to any Product, shall be limited to the price paid by the Customer for the Product at the time of original purchase (not including shipping, handling, sales taxes or installation services); and Product purchase price refund shall be Customer's only claim or remedy arising therefrom. IN ADDITION TO AND WITHOUT LIMITATION OF THE FOREGOING, GLIDECOAT SHALL NOT BE LIABLE UNDER ANY RULE OR THEORY OF LAW TO ANY CUSTOMER OR ANY OTHER PERSON FOR (A) INCIDENTAL, CONSEQUENTIAL, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO LOSS OF REVENUES, LOSS OF PROFITS, LOSS OF BUSINESS, OR OTHER ECONOMIC DAMAGES, OR (B) ERRORS MADE IN THE HANDLING, STORAGE OR INSTALLATION OR APPLICATION OF ANY PRODUCT, REGARDLESS OF WHETHER ONAN WAS ADVISED OF, KNEW OR OUGHT TO HAVE KNOWN OF THE POSSIBILITY OR RISK OF SUCH LOSSES OR DAMAGES.

THE PROCESS:

Preparation

The boat or yacht is to be washed and thoroughly cleaned with Glidecoat Nano Wash.

Surface Restoration

Using Glidecoat Nano Compound and Polish remove any areas of surface oxidation or any surface debris, water marks, swirls or scratches.

Application Process

Use Glidecoat Surface Wipe and a clean cotton white towel to decontaminate the surface leaving it completely clean before applying Glidecoat Nano-Ceramic Top Coating. Use application sponge to apply Glidecoat Nano-Ceramic Top Coating in small areas, 24" by 24" at a time. Then, immediately after applying to the area, use clean microfiber towel to buff out the area to a uniform shine. Repeat this process on the entire boat or yacht overlapping all areas to ensure complete coverage.

PRICING

UPC	SKU	DESCRIPTION	SIZE	MSRP
692193844853	CLKIT	Top Coating Kit (up to 30')	Kit	\$395.00
