

GLIDECOAT NANO WASH

Glidecoat Nano Wash safely removes dirt and salt from marine paint and gel coat by producing a high foam content, which breaks the bond between the dirt film and your boat's paintwork and lubricates dirt particles, minimizing surface abrasion. Nano Wash has been specifically formulated to work in harmony with Glidecoat's range of top coatings and when used in conjunction with Glidecoat's coatings, Nano Wash will ensure maximum gloss retention through reduced micro scratching during the wash process.

BENEFITS

- Minimal abrasion unlike other soaps
- High foam content to break bond between dirt and boat surface
- Only requires 2 caps per bucket of water
- Designed to work with both Glidecoat's Nano-Ceramic Top Coating and Glidecoat Shine & Shield to help maximize surface coating life
- Provides maximum gloss and shine

DISCLAIMER:

Glidecoat a division of Onan Technologies Inc.'s maximum liability for or with respect to any damages of any kind to any person, property or otherwise, caused to any Customer or any other person as a result of or with respect to any proven breach of any express or implied warranty with respect to any Product; misrepresentation with respect to any Product; Product error, failure or malfunction; formula, engineering or design error; manufacturing or packaging error; labelling error; Product failure to perform; or any other act or omission of any kind whatsoever with respect to any Product, shall be limited the price paid by the Customer for the Product at the time of original purchase (not including shipping, handling, sales taxes or installation services); and Product purchase price refund shall be Customer's only claim or remedy arising therefrom. IN ADDITION TO AND WITHOUT LIMITATION OF THE FOREGOING, GLIDECOAT SHALL NOT BE LIABLE UNDER ANY RULE OR THEORY OF LAW TO ANY CUSTOMER OR ANY OTHER PERSON FOR (A) INCIDENTAL, CONSEQUENTIAL, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO LOSS OF REVENUES, LOSS OF PROFITS, LOSS OF BUSINESS, OR OTHER ECONOMIC DAMAGES, OR (B) ERRORS MADE IN THE HANDLING, STORAGE OR INSTALLATION OR APPLICATION OF ANY PRODUCT, REGARDLESS OF WHETHER ONAN WAS ADVISED OF, KNEW OR OUGHT TO HAVE KNOWN OF THE POSSIBILITY OR RISK OF SUCH LOSSES OR DAMAGES.

STORAGE AND USE

- Prior to washing, remove loose dirt and contaminants from your boat by rinsing with a hose or power wash.
- For light dirt, use 2 caps of Nano Wash per bucket, and 4 caps for heavier soiling.
- Always begin washing the upper surfaces and work your way down, rinsing your soft wash sponge/brush/mop in a separate bucket of water as you go to release dirt and then replenish in a second bucket containing your dilution of water and Glidecoat Nano Wash. **NOTE: do not use a hard bristle brush as it will create micro-scratches which will over time, damage the Nano-Ceramic Top Coating.**
- Ensure that you never press hard to remove dirt - for stubborn dirt, allow to soak for several minutes - and always rinse your boat thoroughly to remove all soap residues.
- Never apply detergents directly to the boat or to a sponge/mop.
- Gently dry your boat with a Chamois.
- Glidecoat Nano Wash has a shelf life of 2 years from purchase. For best results, use within 1 year of opening. Ensure the surface is cool to the touch when applying. Store in a cool dark location.

GLIDECOAT

Glidecoat provides a unique range of high performance products and services using Smart Surface Technology (SST) Nano-composite materials. Products include Glidecoat Nano Glass, Inflatable Kit, Nano-Ceramic Top Coating, Prop Optimizer, Anti-Microbial and Shine & Shield. These products have been extensively tested on all forms of marine vehicles in extreme weather conditions by accredited laboratories and have been proven to provide superior protection in even the harshest conditions.
