

GLIDECOAT SURFACE WIPE

Glidecoat Surface Wipe is a one-step preparation product that removes oils and contaminants before applying Gildecoat ceramic coating or polymer applications.

We recommend you test on a small area before use to ensure the product is compatible with your boat's paintwork. In order to effectively remove polish residues this product contains a high volume of hydrocarbons that will not affect original paintwork but can tarnish "smart" repairs and "resprays".

BENEFITS

- Removes residue from compound and polish applications
- Sterilizes the surface and removes all potential contaminants
- Promotes Bonding with Glidecoat Nano-Ceramic Top Coating
- Contains no fragrances or colors
